

ECE 520 Assignment #1
Kerem Bozdaş – 210102037

Question 1:

krmbzds
<https://github.com/krmbzds>

Question 2:

<http://yakut.herokuapp.com>

This is a rails application I have deployed 6 months ago, since I can only use 1 dyno at a time I am sending this link. I do not want to delete this heroku app right now. Here is the link for the github repository where the app was deployed from: <https://github.com/yakut-project/yakut-old>

Question 3:

I use a local installation of **Ubuntu 13.04 x64** on my laptop to develop my application. I use the **heroku-toolbelt** ruby gem to deploy my applications directly to **heroku**.
